JC Bitcoin Meetup General Guidelines

- Basic Rules:

- Please no photos, no videos, no public tagging without consent!
- This group is Bitcoin only so please limit discussion of other cryptocurrencies.
- PLEASE respect the space. We love the barrow mansion and ask for help making it look better than when we arrived.
- For newcomers and OGs alike it is worth reiterating that absolutely no one from JC Bitcoin will ever solicit Bitcoin or crypto transfers here or on any other channel

 - **Chamber of commerce - try to talk to them/Carlos**

- **Our notes**
 - Put their business up on our site
 - They'll see their competitors
 - What will they get out of it, show BTC map
 - Free promotion at our meetups
 - Cycle in newer merchants
 - Coffee truck case study - he gets 4 a day
- **Page on the website**
 - With testimonials from each company
- **NEXT STEPS:**
 - Each of us asks their local square merchant to turn it on, and hand them a one sheet
- **Mile high bitcoin initiative - 600 biz in Denver**
 - Progressive web app that keeps track of bitcoin businesses
 - Materials on how to speak to square merchants
 - Big one, hey have you turned on the lightning rails for transactions - payment system that eliminates transaction fees

- **We can compete against ourselves**
 - **Progressive web app**
 - **We get points - gamify onboarding businesses**
 - **LN login**
 -

The initiative: Jersey City's circular economy.

- JC becomes a bitcoin circular economy
 - That means both shops that accept and a community that spends.
- Every attempt that fizzled died the same way: acceptance with no spenders.
- The kit is built. Tonight we pick targets and start.

What we've built: The merchant kit.

- A full Bitcoin Business Kit, ready to hand out today.
- One-sheeter + step-by-step Square guide (real screenshots) + FAQ for every objection.
- Plus a tax overview, an organizing playbook, and a draft website tab.

JC BITCOIN

BITCOIN FOR BUSINESS · JERSEY CITY

ACCEPT BITCOIN AT YOUR BUSINESS

Lower fees. No chargebacks. A local crowd that wants to spend with you — and we set it up free.

WHY ACCEPT BITCOIN?

- **Keep more of every sale.** Cards take 3-6%. Bitcoin over Lightning is about 1% or less — and 0% on Square through 2026.
- **No chargebacks, ever.** Payments are final — no disputes, no clawbacks weeks later.
- **Money in seconds.** Receive **US dollars** (auto-converted) or **bitcoin** — your choice.
- **Free foot traffic.** You get pinned on **BTCMap**, where Bitcoiners look for places to spend.
- **A built-in crowd.** The Jersey City Bitcoin community will spend at your shop on purpose.

TWO WAYS TO START

The easy way — Square

Already use Square? Switch on bitcoin right in your dashboard. It runs over Lightning, settles to dollars, and costs 0% through 2026. Available in New Jersey. On a **Square Register**, the customer even taps Bitcoin on their own screen at checkout — your staff ring it up like a card.

The sovereign way — BTCPay

Free, open-source software that sends payments **straight to your own wallet** — no middleman, no fees, no ID checks. A little setup, so **we run that part for you**.

Run an online store? Ask us about **OpenNode** (a JC Bitcoin sponsor) — bitcoin at your web checkout (Shopify, WooCommerce, and more), with dollars settled to your bank.

“WHAT ABOUT TAXES?”

- Simple version: **auto-convert each sale to dollars** and your bookkeeping looks just like a card sale — record the dollar amount, done. The IRS treats bitcoin as property; auto-converting keeps it easy. *Talk to your accountant — we're glad to brief them. Not tax advice.*

WE'LL HANDLE THE SETUP — FREE.

JC Bitcoin will pick the right option with you, set it up, run a test payment, give you a “Bitcoin Accepted Here” sticker, add you to BTCMap, and stay one text away. **Get started: [JC Bitcoin contact — Telegram / email / meetup]**

JERSEY CITY IS BUILDING A BITCOIN CIRCULAR ECONOMY — MONEY THAT EARNS & SPENDS AT HOME · EDUCATIONAL ONLY, NOT FINANCIAL ADVICE.

Two rails: Square vs BTCPay.

- Square = the easy on-ramp
- BTCPay Server = sovereign
 - Their own processor, no fees, no KYC; we run the setup.
- Online store? OpenNode

HOW TO ACCEPT BITCOIN · MERCHANT GUIDE

ACCEPT BITCOIN WITH SQUARE

A step-by-step guide for your business — turn it on in minutes.

THE QUICK FACTS

- **0% processing fee** through Dec 31, 2026 (then 1%).
- **New (June 2026):** on **Square Register**, the customer taps **Bitcoin** on their own checkout screen — staff ring the sale like a card.
- Works on **Square Terminal, Square Register, and iOS** devices.
- Settle each sale in **US dollars** (auto-converted to your bank) or keep **bitcoin**.
- Customer pays over the **Lightning Network** — scan a QR, or tap (NFC) on Square Register.
- Available across the US **except New York** — **New Jersey is included**.
- Limits: about **\$600 per transaction, \$20,000 per day**.

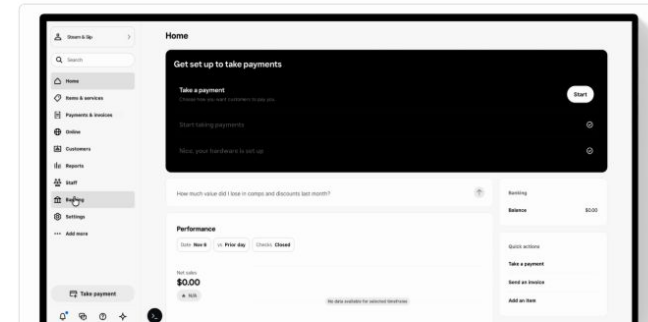

BEFORE YOU BEGIN

- A **Square account**, and — for USD settlement — a **linked bank account**.
- Eligibility is set automatically by Square. If you're eligible, you'll see **Get started** in the Bitcoin section of Banking.

THE STEPS

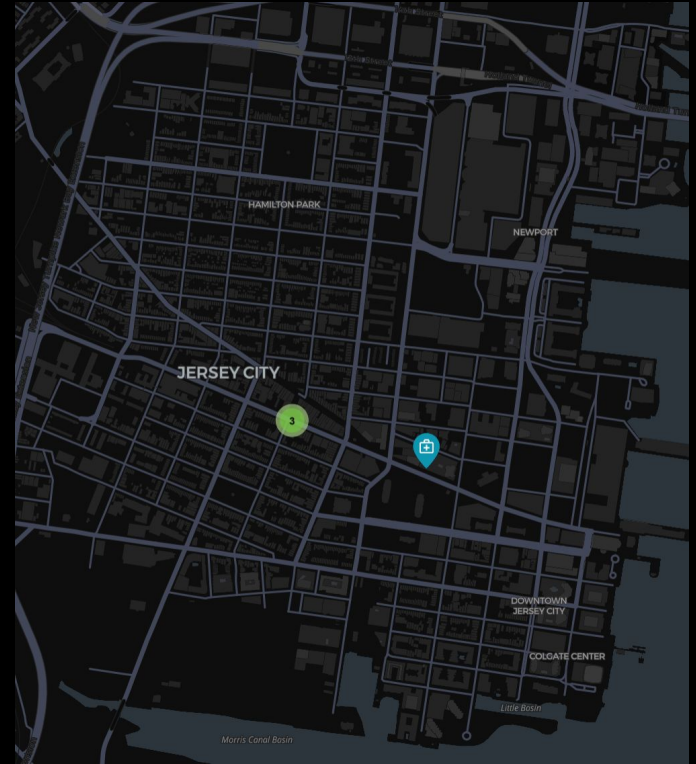

01 Go to your Banking page

In your Square Dashboard, open the **Banking** page. This is where you switch bitcoin payments on for your whole account.

The plan: this month.

- Open BTCMap: pin every JC merchant already accepting; find the gaps.
- Adopt 3 shops each
 - Places we already frequent.
- Align on ONE script
 - Same pitch, so we show up consistent.
- We're the support desk:
 - Free setup + a standing Telegram help channel.

Macro Update

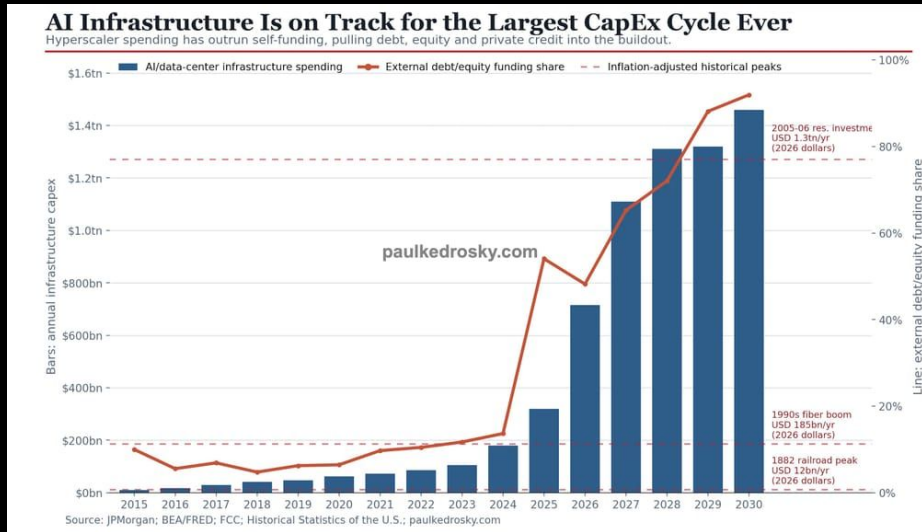

- Key Takeaway:
 - ~~Iran = the only macro variable right now~~
- Iran is old news:
 - Rising real yields
 - Hawkish Fed
 - Strong dollar
 - Tightening liquidity
- The structural bull case (easing -> debasement -> bitcoin bid) is a bet that this regime breaks

Macro Update

AI Capex:

- The marginal speculative dollar finally has somewhere better to go.
 - SpaceX just ran the largest IPO in history, \$75B, Anthropic near a trillion. hyperscalers are spending \$725B this year.
- The same risk appetite that chased bitcoin in 2021 is chasing the AI build out in 2026.
 - But this can't last forever
- Bitcoin's caught in a one-two punch:
 - A hostile macro
 - And a hotter trade for risk capital.
- The bull case says this is exactly the setup:
 - The AI boom is debt-funded, it cracks, the Fed is forced to ease, and that easing is bitcoin's bid

Bitcoin Price Update

- **Key takeaway:**
 - Bottom is in? Doesn't matter
 - **DCA the chop.**
 - Short-term price action is noise
- “Those who truly understand Bitcoin, those who continue to build during a bear market while sentiment is low and hope feels lost - these people will be the ones becoming the most successful.”
 - “Now is the time to build, form alliances, help each other out, and prepare for the inevitable adoption of Bitcoin.”
 - - Andrew Howard

BITCOIN NOOBS:

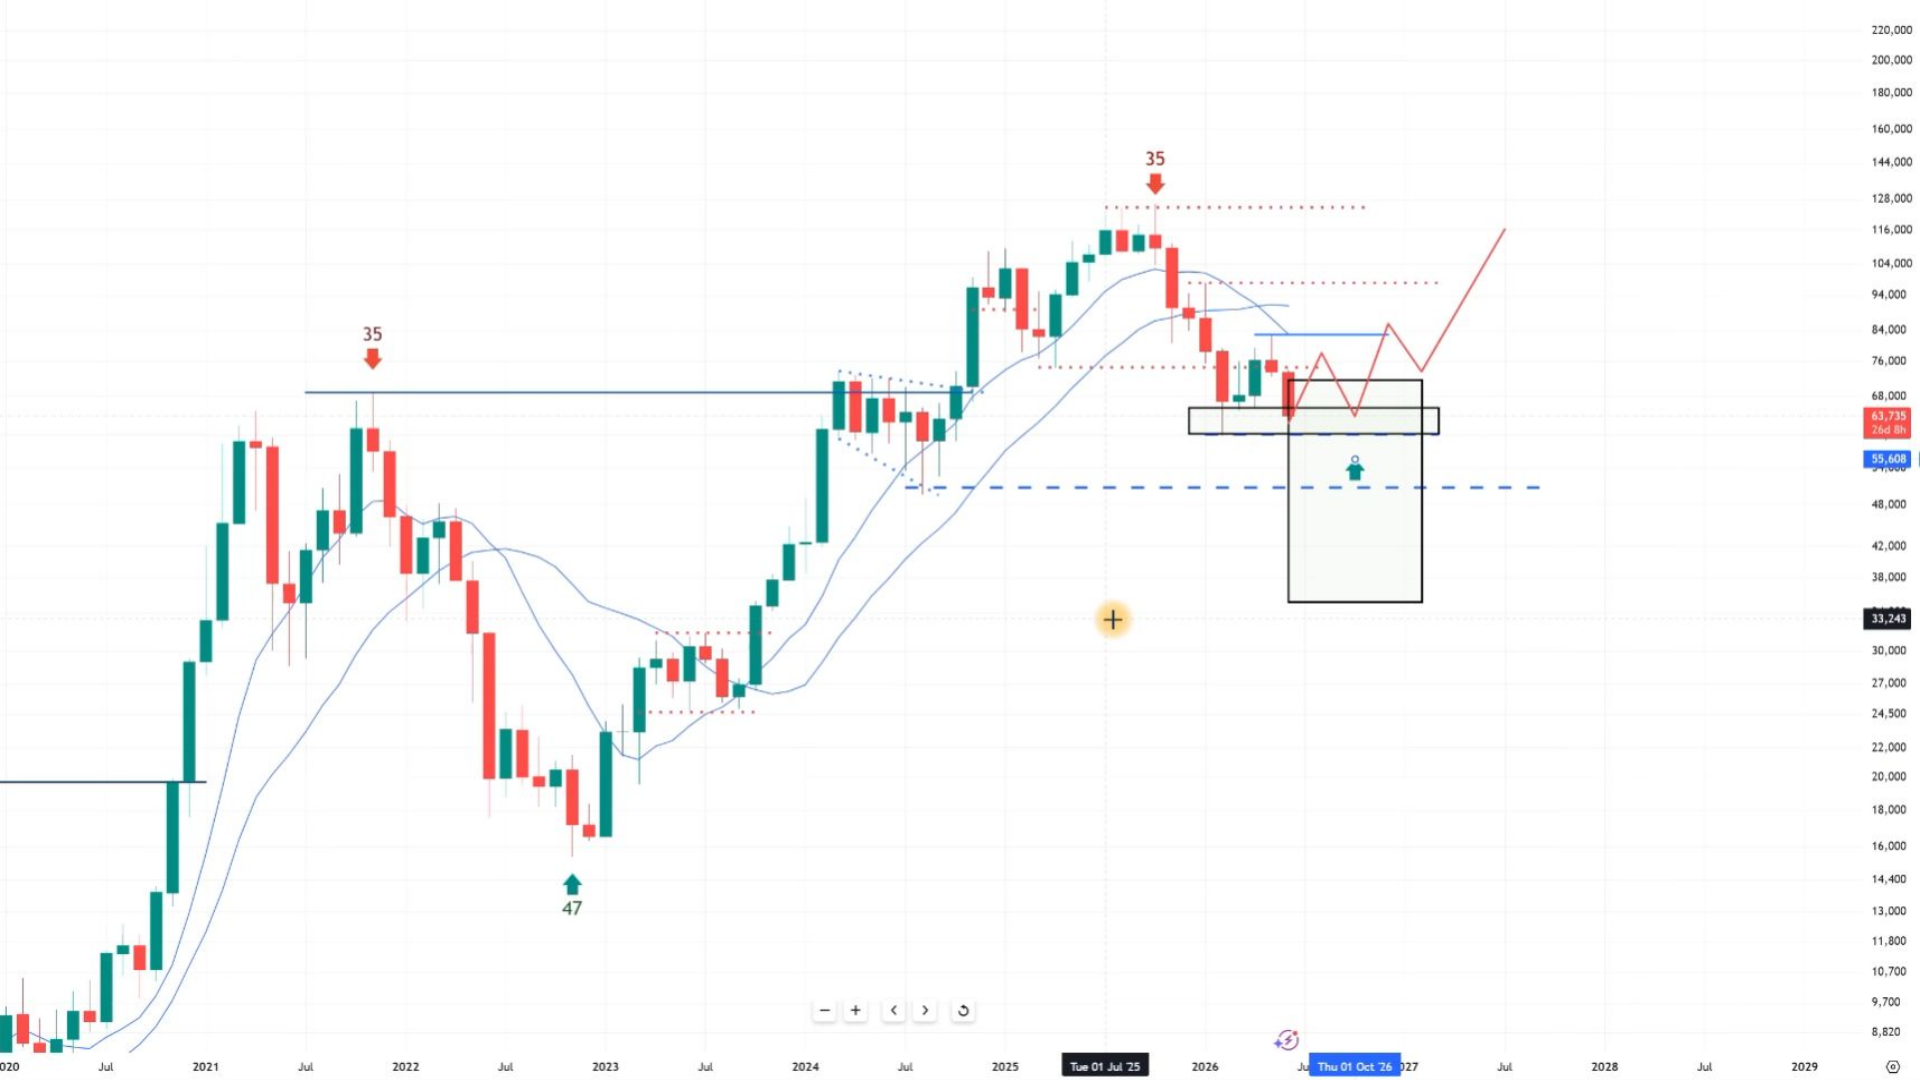

FOR HOW MUCH
LONGER WILL IT
GO DOWN?
SHOULD I KEEP HOLDING
OR SHOULD I SELL?

BITCOIN VETERANS:

THIS BEAR MARKET
WAS PRETTY SMOOTH
PRICE ONLY WENT
DOWN BY 85%
AND ONLY ONE
BIG EXCHANGE
WENT BANKRUPT.

Some good news on the horizon though!

Huge progress update. We will soon have Cashu Ecash mints in secure enclaves that the mint operator can't steal the Bitcoin from, not can they inflate or manipulate the Ecash supply.

The operator has no access to the private keys of the mint. This is amazing news for users and operators alike.

It allows us to build tools for communities that allow them to run mints without being afraid of malicious actors, internally or externally, such as security threats from hackers.

As a result of a US government directive, we are suspending access to Claude Fable 5 for all users. You can continue to use all other Claude models.

Here's what this means for you:

Across Claude products, new sessions will run on your selected default model or Opus 4.8, and existing Fable 5 sessions will end with an error.

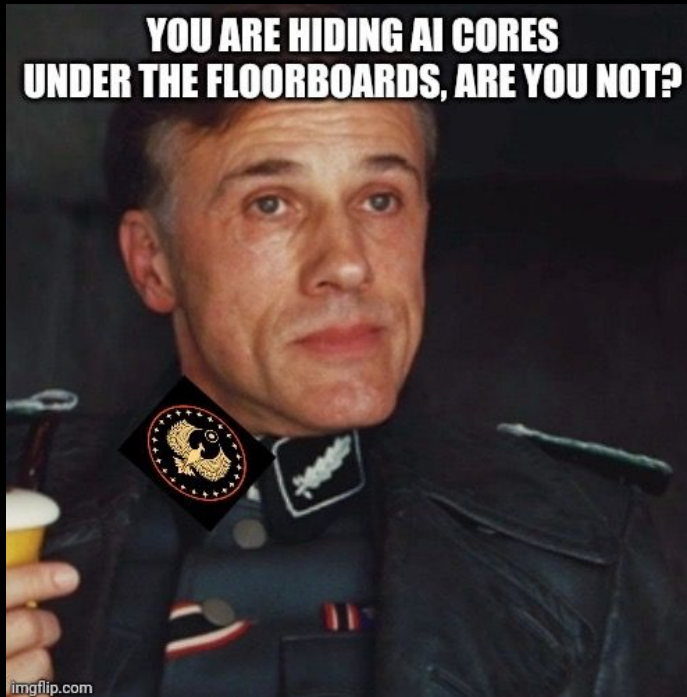

On the Claude Platform, requests to Fable 5 will also return an error. Please update your integrations to other Claude models.

We know this is a disruption to your workflows; we appreciate your patience and support.

It is with a heavy heart that we announce we are winding down the Botanix network.

This decision is the hardest one we have made in four years, and we want to share the reasoning openly because the people who backed us, built with us, and used what we shipped deserve more than a quiet shutdown notice.

First off, an immediate practical consideration for the Botanix community: please withdraw your Bitcoin and other assets before July 9th, 2026.

When we started in 2022, the pitch was simple enough to say in a sentence: bring real utility to Bitcoin. What that actually meant in practice, and what we have spent nearly four years building toward, was more ambitious than that sentence made it sound. We were trying to build a Bitcoin-based blockchain that could find genuine product-market fit as a platform for Bitcoin applications, without using token incentives to

SECOND IS NOW ON MAINNET.

Bark, our implementation of the Ark protocol, is available for anyone to start making bitcoin payments.

Included in the launch are our mainnet Ark server, the Bark SDK, and multiple wallets to try from day one.

1/ Bark is now a Lightning backend option in Alby Hub.

@getAlby built the integration on the Bark SDK in record time, just days after our mainnet launch. You can now enable Lightning payments in your hub with no Lightning node, channels, or liquidity to manage.

3/ With Bark as backend, connected wallets get self-custodial Lightning payments, but there are no channels to open, no rebalancing, and no force closures. Bitcoin-at-rest is held in your Ark balance, and can be exited on-chain if you ever need to. Fees are low and predictable.
