Sponsored by:

**Sovereignty consulting to
thrive in the great digital
transformation.**

Agenda:

- Intro
- JC Circular Economies
- All about downtown!
- Macro Update
- Bitcoin Price Update
- Bitcoin News
- BIP 110
- Book Sharing Program

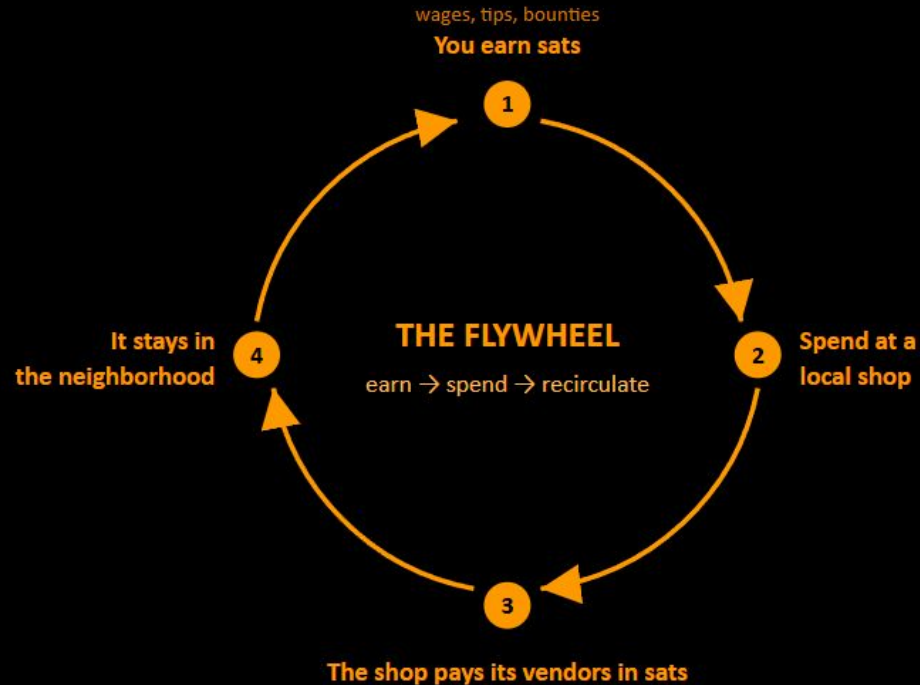

JC Bitcoin Meetup General Guidelines

- Basic Rules:

- Please no photos, no videos, no public tagging without consent!
- This group is Bitcoin only so please limit discussion of other cryptocurrencies.
- PLEASE respect the space. We love the barrow mansion and ask for help making it look better than when we arrived.
- For newcomers and OGs alike it is worth reiterating that absolutely no one from JC Bitcoin will ever solicit Bitcoin or crypto transfers here or on any other channel

The initiative: Jersey City's circular economy.

We help small businesses keep more of their profit.

The Bitcoin Merchant Community is a growing global community of small businesses helping one another defeat **3% credit card fees** by accepting bitcoin.

[LEARN HOW TO ACCEPT BITCOIN](#)[JOIN OUR FACEBOOK COMMUNITY](#)

No Stress BTC Merchant Playbook

- A full Business approaching guide
- Also available on our site, with links to merchant adoption resources

TURN A SQUARE SHOP ORANGE IN ONE VISIT

You made Bitcoin what it is. Now let's make it spendable at the register. This card is for you, the community member doing the onboarding. Ask one question, spark some curiosity, then hand over the merchant guide.

Serve, don't sell. You're a loyal customer bringing them a way to keep more of every sale, not pitching crypto.

START WITH ONE QUESTION

"HAVE YOU TURNED ON THE LIGHTNING RAILS FOR TRANSACTIONS TO ELIMINATE TRANSACTION FEES?"

Ask it, then stop. Let them get curious. Curiosity opens the door a pitch closes.

- 1 Pick your spot.** Choose a local business you love that uses Square but doesn't take Bitcoin yet. Go in when the owner can spare a few minutes.
- 2 Keep it real.** Introduce yourself as a loyal customer who wants to pay in Bitcoin, and make clear this benefits them first and foremost.
- 3 Ask the opener.** Use the question above, then let it land. Their "wait, really?" is your opening.
- 4 Give the one reason that lands: their bottom line.** Cards take 3 to 6%. Square Bitcoin is 0% through 2026. The money arrives in seconds, and there are no chargebacks, ever. Skip scarcity and immutability; they care about the register.
- 5 Offer the incentive: free promotion.** "Can we bring you customers? The Jersey City Bitcoin community spends at Bitcoin-friendly shops on purpose, and we'll feature your business on our website and on the map Bitcoiners use to find shops."
- 6 Make it effortless.** "It's already built into your Square. We can turn it on in about 10 minutes, here's a quick guide, or I'll walk you through it right now." Then hand over the merchant guide.
- 7 Owner not around?** Leave the guide with an employee and ask that it reach the owner's desk. Get a name and a way to follow up.
- 8 Close the loop.** Get their contact and send a short thank you. When they switch it on, come back and be their first Bitcoin customer.

Incentives drive behavior.

Simplify: meet people at zero context.

It's a service, not a sale.

SET-UP HELP, QUESTIONS, OR TO JOIN US

Square Merchant Guide

- Square = the easy on-ramp
- Well documented and quick way for a merchant to accept bitcoin
- Merchant guide available for handing out

FOR BUSINESS OWNERS

ACCEPT BITCOIN. DECLINE CREDIT CARD FEES.

When a credit card takes 3% of a sale, did they earn it?

Profit margins for a small business often sit around 6%. Credit card fees can eat half of that, for a swipe, a dip, or a tap. Bitcoin is digital cash: **no chargebacks, no gatekeepers, and no 3% fees.** And if you use Square, you can already accept it. Here is why it is worth turning on, and how the Jersey City Bitcoin community will help you do it for free.

KEEP MORE OF EVERY SALE

Card networks take 3 to 6%. Bitcoin on Square is **0% through the end of 2026**, then 1%, with no spread on auto-convert. That difference is money you keep.

NO CHARGEBACKS, EVER

A Bitcoin payment is final the moment it clears. No friendly fraud, no disputes months later. In Square's own words: "zero processing fees, instant access, and no chargebacks."

YOUR MONEY IN SECONDS

Payments settle over the Lightning Network in seconds. Receive **US dollars** (auto-converted) or **bitcoin**. Your choice, set once.

FREE PROMOTION, A BUILT-IN CROWD

We feature your shop on the **Jersey City Bitcoin website**, add you to **BTCTMap**, and give you a shout-out at our meetups. Our community spends at Bitcoin-friendly shops on purpose.

NOTHING TO STEAL

No card numbers on file and no card database to breach. A Bitcoin payment carries no account data a thief could reuse, so a hack has nothing to take.

CUSTOMERS WHO SEEK YOU OUT

A growing group of people prefer to pay in bitcoin and look for shops that accept it. Being listed puts your business right in front of them.

Nothing new for your staff. On a Square Register the customer taps "Bitcoin" on their own screen and your team rings the sale like a card. On a Terminal or tablet, it is one tap. The customer's phone does the rest.

What about taxes? Choose auto-convert to dollars and your books look exactly like a card sale: record the dollar amount, done. Talk to your accountant, and we are happy to walk them through it.

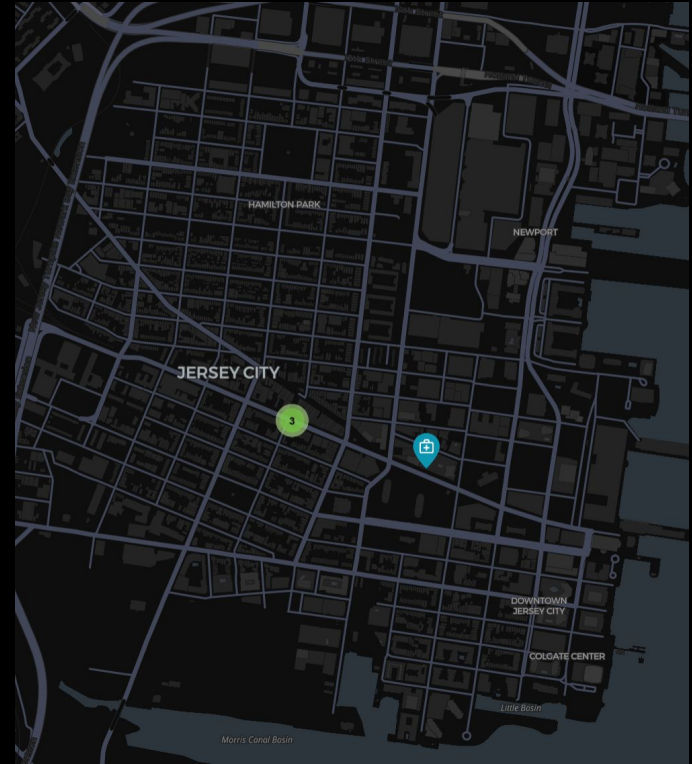

WE'LL SET IT UP WITH YOU, FREE, IN ABOUT 10 MINUTES

jerseycitybitcoin.com

The plan: Low Hanging Fruit

- Open BTCMap: pin every JC merchant already accepting; find the gaps.
- Adopt 3 shops each
 - Places we already frequent.
- Align on ONE script
 - Same pitch, so we show up consistent.
- We're the support desk:
 - Free setup + a standing Telegram help channel.

Bitcoin Treasure Hunt

Donor Brief

Midwest Bitcoin Summit | Greater Columbus Convention Center

The Ask

We are raising money to fund two treasure hunts - one on the Expo floor, one out on North High Street - that will introduce ~60 people to sound money through hands-on play. A third hunt may be added if initial interest is high.

What We're Doing

Hunt 1 - Expo Floor (~30 participants) (Day 1):

Targets Bitcoin meetup hosts from across the country. They already believe. This gives them a repeatable playbook to go home and orange-pill their own communities. National ripple effect.

Hunt 2 - North High Street (~30 participants) (Day 1 - evening session):

Targets the local community - people with no Bitcoin context. These are the future customers of the businesses accepting Bitcoin. This hunt kickstarts the Columbus, Ohio Bitcoin community and gives them a head start on real adoption.

Hunt 3 (depending on interest) - Expo Floor or North High Street (~30 participants) (Day 2):

Expands the mission deeper into the Expo or North High Street corridor.

Bitcoin Price Update

- **Key takeaway:**
 - Bottom is in? Doesn't matter
 - **DCA the chop.**
 - Short-term price action is noise
- “Those who truly understand Bitcoin, those who continue to build during a bear market while sentiment is low and hope feels lost - these people will be the ones becoming the most successful.”
 - “Now is the time to build, form alliances, help each other out, and prepare for the inevitable adoption of Bitcoin.”
 - - Andrew Howard

Bit Paine ⚡

@BitPaine

caught up with a friend of mine who had been in crypto since 2017. works at a startup. they are very close to shutting down completely. no funding left. crypto VCs are all either bankrupt or they've pivoted to ai. can't raise money. they are hoping for a btc pump before their runway ends so they can hopefully sell their company for 5% of what it was valued in 2021

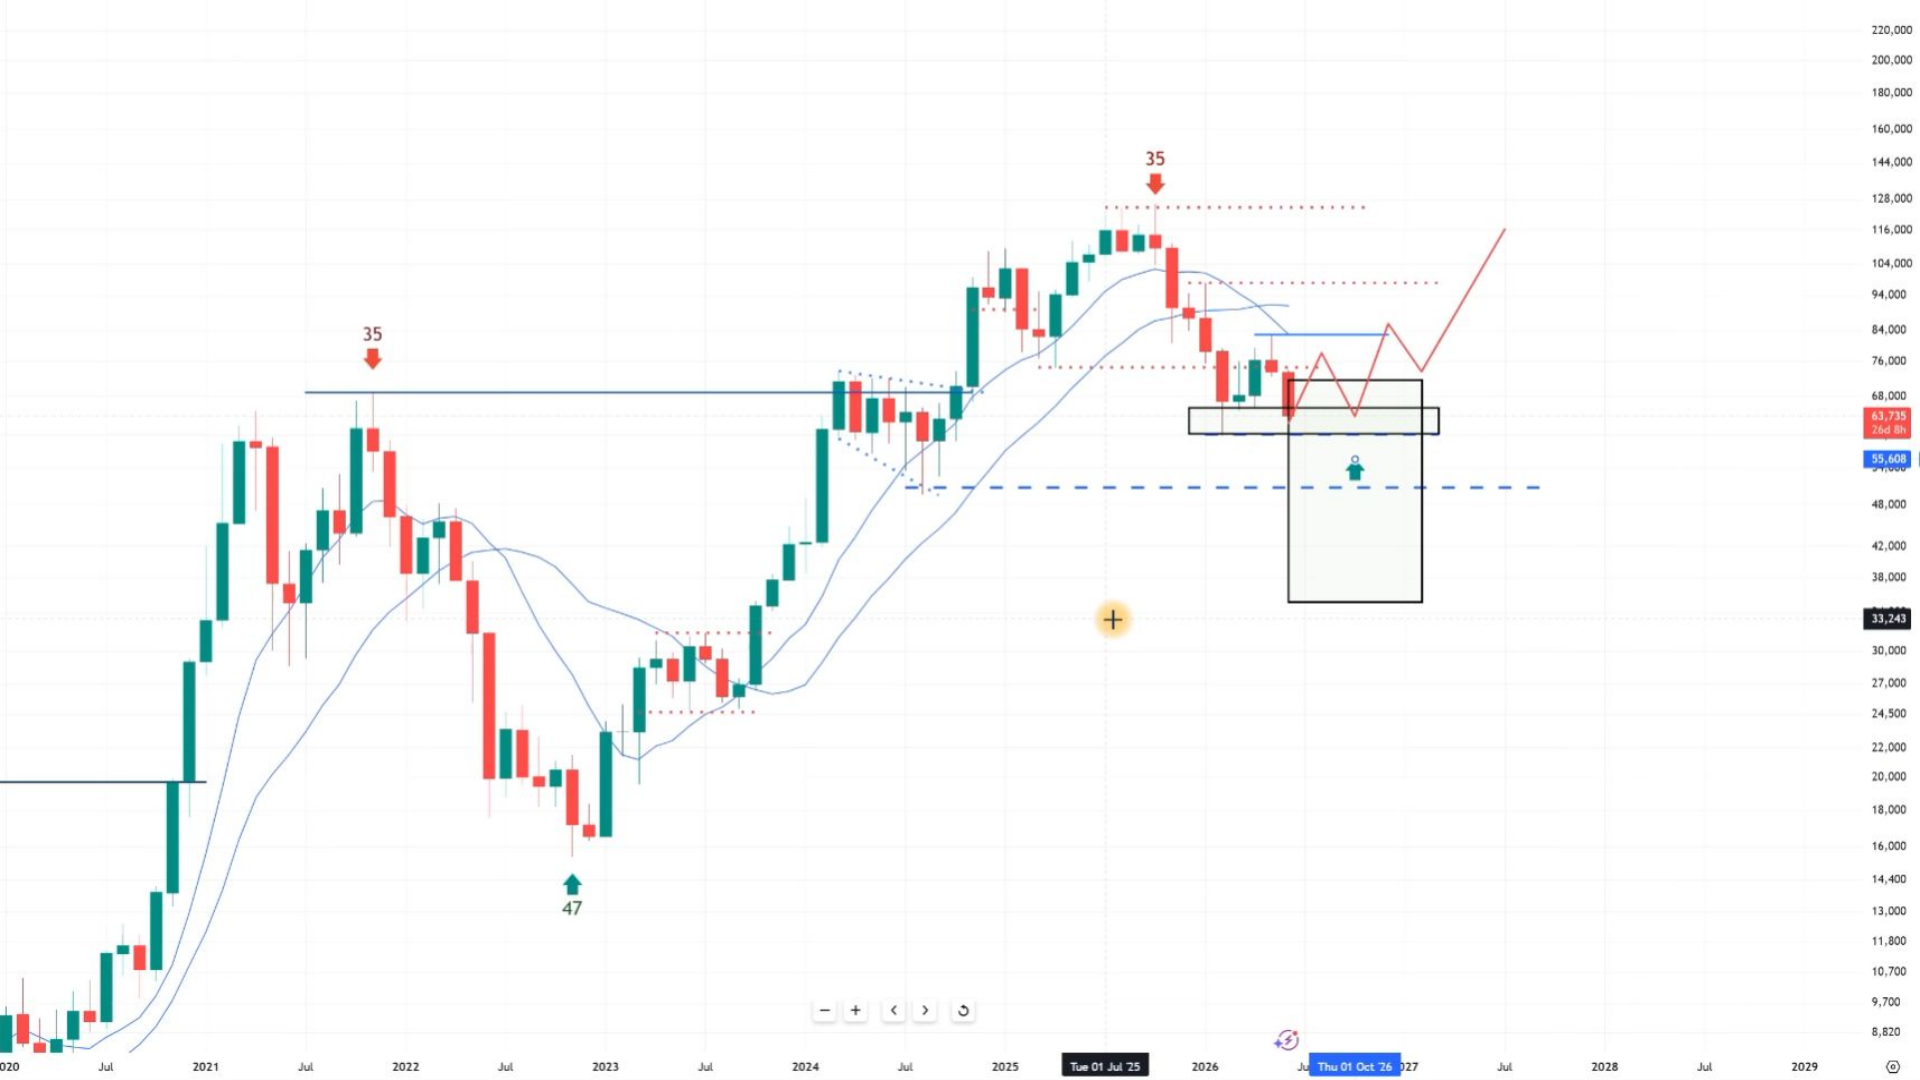

founders started with 10,000 BTC (they were OGs), have sold 2/3rds trying to keep company afloat.

in case you're wondering who has been selling, and what crypto contagion looks like.

it looks like a bitcoin cycle with no alt season. every pile of shit in this fake industry going to zero, and a drag on BTC performance as they sell the only thing they can.

we are close to the end. they have run out of coins. sold to Fink and Saylor.

GUIDE: SAFELY SELLING BITCOIN FORKS & CLAIMING COINS

PHASE 1: BEFORE THE FORK

1. GENERATE NEW SEED & CREATE 'FORK WALLET'

HARDWARE WALLET

NEW SEED PHRASE

Securely generate a brand new seed phrase using a hardware wallet.

2. MOVE BTC TO FORK WALLET

OLD WALLET

FORK WALLET

Move Bitcoin to Fork Wallet.
KEEP OLD SEED PHRASES SECURE
(they will be used later).

3. KEEP BTC SECURE UNTIL FORK

FORK WALLET

Keep Bitcoin secure in Fork Wallet.

THE BITCOIN FORK EVENT

PHASE 2: AFTER THE FORK

4. MOVE REAL BTC BACK TO OLD WALLET

FORK WALLET

OLD WALLET

Wait for confirmation.
'FORK WALLET' seed is now
empty of real BTC

5. ACCESS FORK COINS (WALLET COMPROMISED!)

Load Fork Wallet seed into
fork-compatible wallet software.
File seed phrase away, **DO NOT**
reuse for BTC.

6. TRANSFER FORK COINS TO EXCHANGE

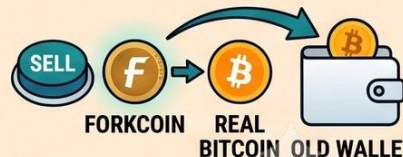

EXCHANGE

Forkbitcoin
(e.g., BCH, BSV)

Move Forkbitcoin to an
exchange that accepts it and
wait for confirmations

7. SELL FORKCOIN FOR REAL BITCOIN

Sell Forkbitcoin for real Bitcoin.
Withdraw BTC back to
PRE-FORK wallet and **ENJOY!**

Luke Dashjr  
@LukeDashjr

X.com

No, that would be the case if BIP110 didn't have a UASF fallback. If the miners all refuse to follow the rules, then the only path forward is a proof-of-work change.

@oomahq

🔄 Translated from Spanish [Show original](#) ⚙️

- DON'T PREVENT SPAM FROM EXISTING

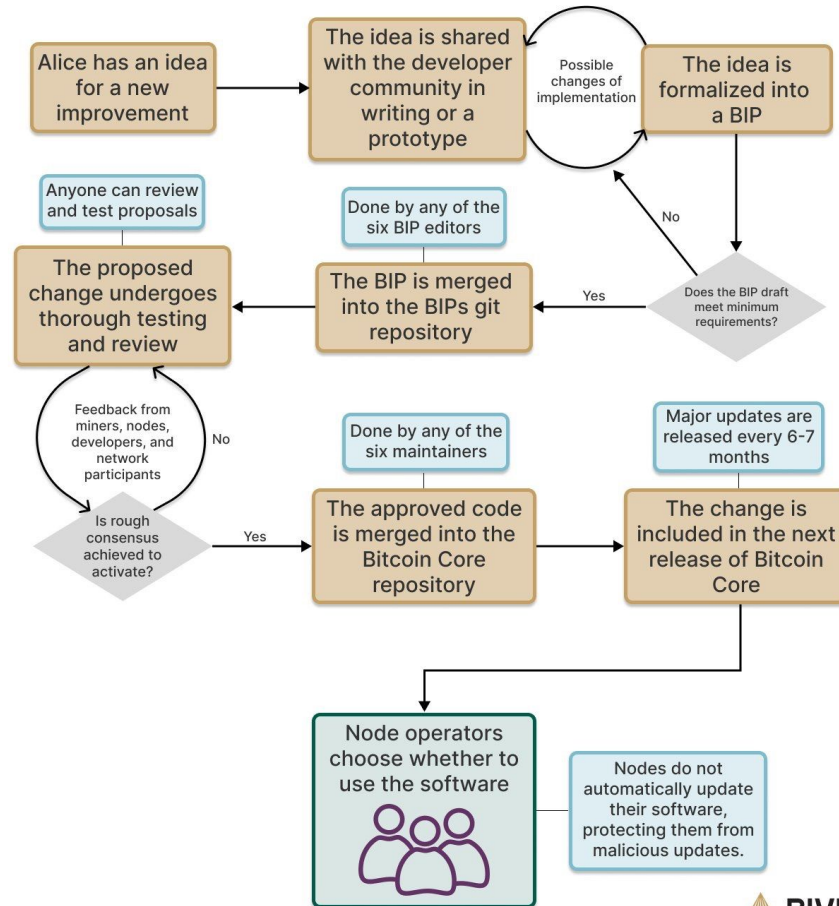

This argument (very common, by the way) is a non-sequitur because BIP-110 isn't about combating spam; it's about addressing a series of governance failures in Bitcoin Core, whose climax was the destruction of `-datacarriersize` in Core v30.

The goal of BIP-110 is to force reasonable mempool policies onto Bitcoin Core and keep them that way.

Ideally, the project leadership should also understand that node runners want more

of this kind of tooling and not less, and improve Core in this regard (they've rejected many PRs that would have improved Core in this aspect).

How Does an Idea Make Its Way Into Bitcoin Core?
