

FOR BUSINESS OWNERS

ACCEPT BITCOIN. DECLINE CREDIT CARD FEES.

When a credit card takes 3% of a sale, did they earn it?

Profit margins for a small business often sit around 6%. Credit card fees can eat half of that, for a swipe, a dip, or a tap. Bitcoin is digital cash: **no chargebacks, no gatekeepers, and no 3% fees.** And if you use Square, you can already accept it. Here is why it is worth turning on, and how the Jersey City Bitcoin community will help you do it for free.

KEEP MORE OF EVERY SALE

Card networks take 3 to 6%. Bitcoin on Square is **0% through the end of 2026**, then 1%, with no spread on auto-convert. That difference is money you keep.

NO CHARGEBACKS, EVER

A Bitcoin payment is final the moment it clears. No friendly fraud, no disputes months later. In Square's own words: "zero processing fees, instant access, and no chargebacks."

YOUR MONEY IN SECONDS

Payments settle over the Lightning Network in seconds. Receive **US dollars** (auto-converted) or **bitcoin**. Your choice, set once.

FREE PROMOTION, A BUILT-IN CROWD

We feature your shop on the **Jersey City Bitcoin website**, add you to **BTCTMap**, and give you a shout-out at our meetups. Our community spends at Bitcoin-friendly shops on purpose.

NOTHING TO STEAL

No card numbers on file and no card database to breach. A Bitcoin payment carries no account data a thief could reuse, so a hack has nothing to take.

CUSTOMERS WHO SEEK YOU OUT

A growing group of people prefer to pay in bitcoin and look for shops that accept it. Being listed puts your business right in front of them.

Nothing new for your staff. On a Square Register the customer taps "Bitcoin" on their own screen and your team rings the sale like a card. On a Terminal or tablet, it is one tap. The customer's phone does the rest.

What about taxes? Choose auto-convert to dollars and your books look exactly like a card sale: record the dollar amount, done. Talk to your accountant, and we are happy to walk them through it.

TURN IT ON WITH SQUARE

ACCEPT YOUR FIRST BITCOIN PAYMENT

VERIFIED AGAINST SQUARE'S HELP CENTER AND SQUARE'S OWN SETUP GUIDE, JULY 2026

Good news: it may already be on. Square switched Bitcoin acceptance on by default for eligible US sellers in March 2026. The steps below either confirm it or turn it on. It works in New Jersey (New York is the one state excluded).

KNOW BEFORE YOU START

- **The fee:** 0% through December 31, 2026, then 1%. Compare that to 3 to 6% on cards.
- **Size limits:** up to about **\$600 per transaction** and **\$20,000 per day**. Great for a cafe, bar, or shop; too low for big-ticket items.
- **Your money, your way:** at setup, choose to **auto-convert every sale to US dollars** (simplest bookkeeping) or **keep bitcoin** in the Square bitcoin wallet.
- **Refunds** are issued as a gift card for the dollar amount. If a Bitcoin charge sits unpaid for more than 5 minutes, ring it again at the new rate.

Turn it on

On the web (Square Dashboard)

- 1 Sign in and go to **Banking** > **Bitcoin**.
- 2 Click **Get started** and set up two-step verification if prompted.
- 3 Choose to settle in **US dollars** (auto-convert) or in **bitcoin**. That's it.

On a Square POS app (tablet or phone)

- 1 Open the app and tap **Banking**.
- 2 Next to **Bitcoin**, tap **Activate**.
- 3 Choose **dollars** or **bitcoin**, and you're live.

Take your first payment

- 1 Ring up the sale as normal.
- 2 Select **Bitcoin** as the payment method. A **Lightning QR code** appears.
- 3 The customer scans it with Cash App or any Lightning wallet (or taps their phone on a Square Register, 2nd generation).
- 4 It settles in seconds. The funds show in your Square dashboard as dollars or bitcoin.

FINISH STRONG

- **Add your shop to BTCMap** (btcmap.org) so Bitcoiners can find you. Free, and we'll do it with you.
- **Put a "Bitcoin accepted here" sticker** at the register. We'll give you one.
- **Text us any time you get stuck.** The single thing merchants value most is knowing someone will pick up.
